Graham H. Emery
VP Product Development
West Sanitation Services, Inc.
3882 Del Amo Blvd, Suite 602
Torrance, CA 90503

Dear Mr. Emery:

The U.S. Environmental Protection Agency applauds West Sanitation Services, Inc. ("West Sanitation") for your leadership in developing an environmentally-oriented toilet deodorizer. EPA's Design for the Environment ("DfE") program seeks to promote the use of products with improved environmental and human health characteristics. The product in our partnership – Tradewinds RTU – fully achieves that objective in the I/I and consumer cleaning sectors.

The key purpose of the DfE– West Sanitation partnership is to recognize and encourage the environmentally preferable chemistry of the partnership product. DfE is very enthusiastic about your successful formulation of this product and about our partnership. By eliminating hazardous solvents, environmentally persistent surfactants, and other harmful ingredients, you have demonstrated active environmental stewardship and dedication to continuous improvement.

Customers who use your DfE-labeled product will be participants in this important national effort to protect the environment and safeguard human health. We commend West Sanitation for your commitment to improving the environmental profile and performance of your product—and for leading change in the cleaning industry. DfE looks forward to building this partnership and wishes you much success with the partnership product.

Sincerely,

A handwritten signature in green ink, appearing to read "Clive Davies".

Clive Davies, Chief
Design for the Environment
